

Gold Standard Toaster | GST-1V

INNOVATIVE AND UNIQUE TOASTING

The Antunes' Gold Standard Toaster (GST-1V) features an innovative and unique toasting system, the GST-1V provides operations with quality, reliability, and consistency in a compact footprint.

The GST-1V utilises dual-belt technology that cradles product as it moves along the heat source, eliminating defects such as sticking, slipping, and marking. With fully programmable temperature and motor speed settings as well as adjustable compression, the GST-1V is easily customisable for menu flexibility.

Easy-to-operate

Versatile control panel for quick adjustments to toast quality

Better Results

Continuously moving belts allow immediate feeding of product without sticking

Fully Customizable

Programmable controls allow users to make adjustments to Platen Heater Temperature and Motor Speed.

Gold Standard Toaster | GST-1V

Features:

- Compact, vertical design to easily integrate into kitchen layouts.
- Energy-efficient design reduces heat loss and prevents outside surface of toaster from becoming hot.
- Continuously moving belts allow immediate feeding of product without sticking.
- Easy-to-operate control panel for quick adjustments to toast quality
- Programmable controls allow users to make adjustments to platen heater temperature and motor speed.
